

RECEPTION UPDATE

Want to make your reception the best party of 2011? We have a few ideas!

The buzz word for receptions in 2011 is colour. Increasingly brides and grooms are choosing to wow their guests with bright, quirky details. We can't get enough of **Danish designers Rice** at the moment - hang these lampshades in a marquee or above your reception tables for visual impact. **M&S** also have some gorgeous new decorations this spring - dot these **votive candle holders** around your tables for a little ambient lighting. Flowers are bright and beautiful too - visit flowers.org.uk for some great inspiration or turn to our flower gallery on p193 to start collecting ideas...
